Since 1991, Camp WheezeAway has made summer camp a reality for children with asthma.

Through generous donations from businesses, foundations, and individuals Camp WheezeAway partners with the YMCA Camp Chandler to underwrite the entire cost of the camp.

The all volunteer staff includes doctors, nurses, and respiratory therapists. They spend one-on-one time with each child. Campers attend daily classes about asthma and how to live with asthma.

For one unforgettable week, children get to indulge in all of the camp activities such as horseback riding, swimming, canoeing, archery, sports, games, arts and crafts.
